All of Us

The All of Us Research Program is inviting 1 million people across the United States to help build one of the most diverse health databases in history. It is put on by the National Institute of Health, and the goal is to get as many people from all backgrounds, in our case rural, and use the data to learn how our biology, lifestyle, and environment affect health in the hopes of finding ways to prevent and treat disease. The goal of All of Us is to speed up health research discoveries, to enable new kinds of individualized health care.

This event will be happening August 7th – August 10th from 9:30 AM – 3 PM, at the Dawson County Annex Building located at 200 W 7th St, Lexington, NE 68850. By participating you can learn more about your health, including information about genetic traits and ancestry, potential increased risk of developing certain diseases, or how your body might react to certain medicines.

Two Rivers Public Health's regular office hours are 8:00 a.m. to 4:30 p.m. Monday through Friday. The office can be contacted at 888-669-7154.

ABOUT TWO RIVERS PUBLIC HEALTH DEPARTMENT

Two Rivers Public Health Department engages collaborative partners, community leaders and the public to promote healthy lifestyles, provide preventative education, assure environmental quality, and create more healthy and safe communities for all who live within the district.
