

About Us

The Two Rivers Public Health Department (TRPHD) serves a population of 97,423 across seven counties in South-Central Nebraska, spanning 4,663 square miles. TRPHD is the 4th largest health district in Nebraska, its population mostly clustered around the I-80 corridor. Over 3/4th of residents live in Buffalo & Dawson, 10% in Phelps, and 15% in Kearney, Harlan, Franklin and Gosper Counties in decreasing order. The largest cities are Holdrege (pop. 5,515), Lexington (pop. 10,348) and Kearney (pop. 33,790); over half of the residents of TRPHD live in these three cities, over a third in Kearney city alone.

TRPHD engages collaborative partners, community leaders, and the public to promote healthy and safe communities for all who live within the district. TRPHD envisions a health district where all are able to safely and actively live, learn, work, and play in their communities. TRPHD facilitates collaborative, partnerships, and unique approaches that educate, empower, and engage local community partners, health providers, political decision-makers, community leadership, and the public.

Report Summary

- No new cases of Influenza or RSV were recorded in TRPHD in the past week.
- TRPHD recorded 7 new cases of COVID in the past week, mostly clustered in Buffalo County.
- The first two weeks of the Respiratory Season 2025-26 has recorded fewer cases overall than previous years.

Data Insights

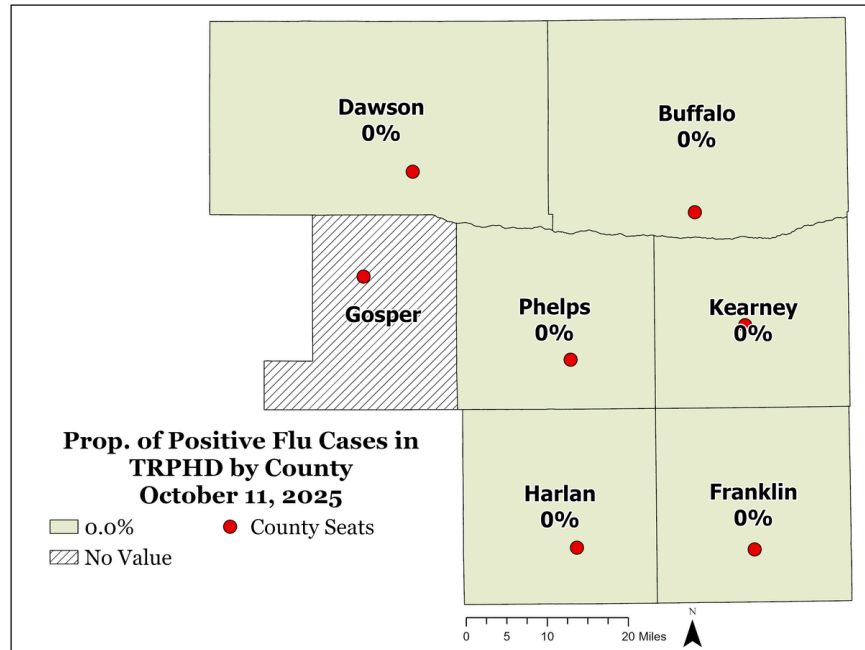

- Overall Respiratory Disease Positivity Rate is calculated by the following equation:
 - We applied a 3% overlap adjustment between Flu A and Flu B positive tests to account for the likelihood that a small percentage of individuals tested positive for both.

$$PR = \frac{((PosFluA + PosFluB - 0.03 \times (TotalFluTests)) + PosRSV + PosCOVID)}{(TotalFluTests + TotalRSVTests + TotalCOVIDTests)}$$

- Flu and RSV county data is collected from Nebraska Flu ILI Surveillance.
- COVID-19 county data is collected from the National Electronic Disease Surveillance System (NEDSS).
- Weekly Case counts of any infection exceeding 150% of the corresponding week in the previous year will trigger an alert for heightened incidence across the district.

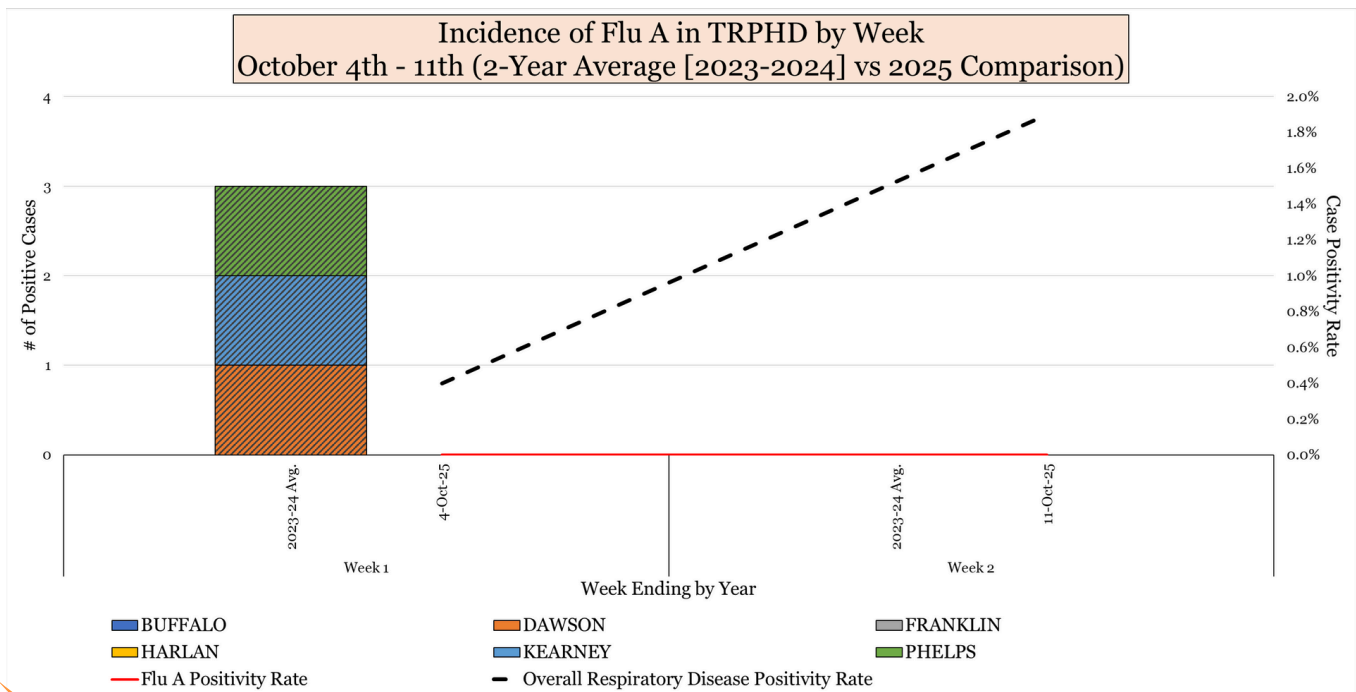

TRPHD Flu Cases

October 11, 2025

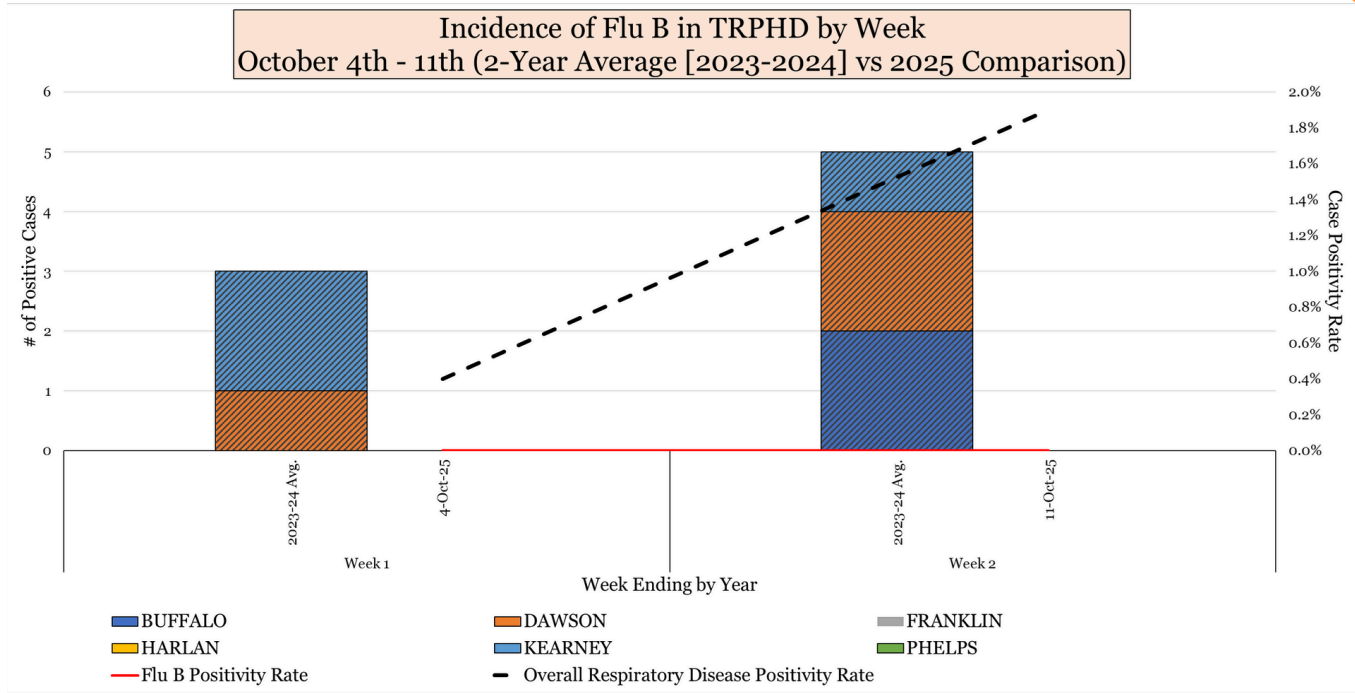

Influenza

- No new cases of Influenza A were detected in the past week in TRPHD.

TRPHD Flu Cases

October 11, 2025

Influenza

- No new cases of Influenza B were detected in the past week in TRPHD.

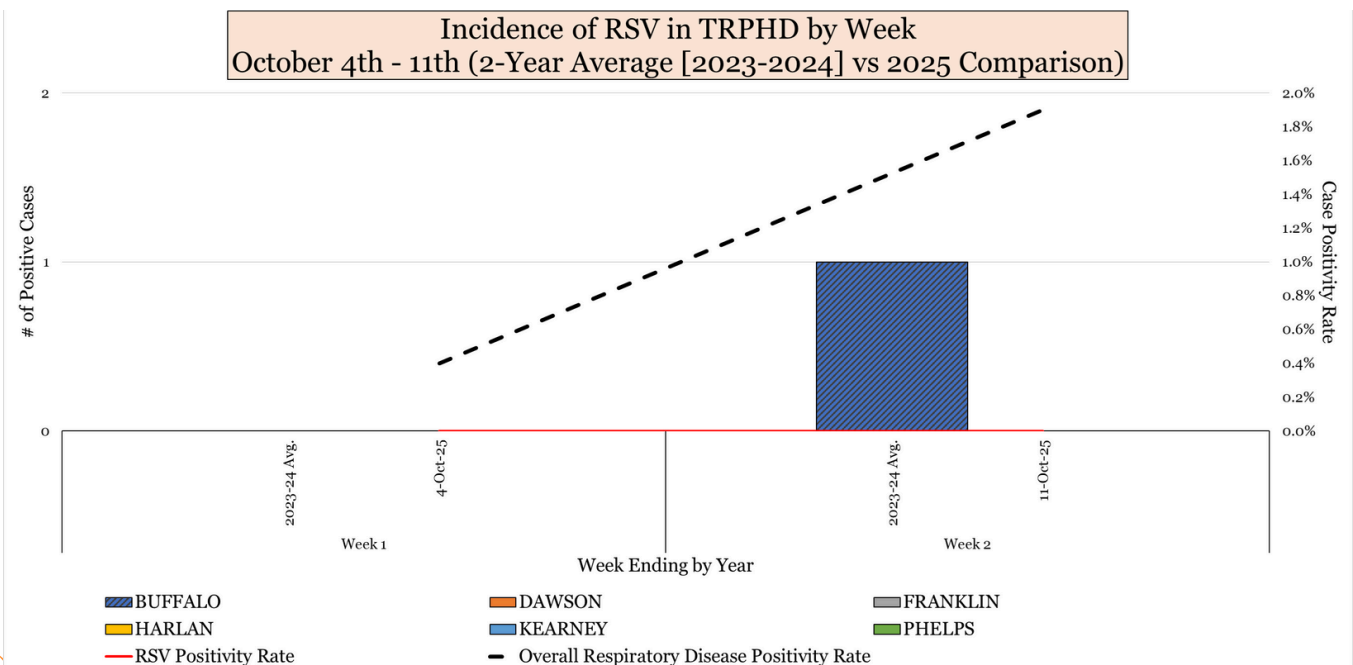

TRPHD RSV Cases

October 11, 2025

Respiratory Syncytial Virus (RSV)

- No new cases of RSV were detected in the past week in TRPHD.

TRPHD COVID-19 Cases

October 11, 2025

COVID-19

- Two Rivers Health Department recorded seven new cases of COVID in the past week.
- These cases were largely confined to Buffalo County, with a couple of cases seen in Dawson and Phelps Counties.
